About Genevive: Genevive has delivered primary care services to residents in long-term care facilities since 2003. We provide expert, compassionate, patient-centered care to everyone we touch. As a Minnesota Top 150 workplace, our culture fosters a collegial, intellectually stimulating and fun work environment. Genevive's NPs exercise autonomy in medical decision making and provide a broad range of services in long term care and transitional care settings. They also benefit from practicing in a collaborative model with expert, accessible and committed Geriatricians. Together we deliver innovative, but old fashioned primary care.

This is a unique opportunity for a high performing, compassionate GNP, FNP, or ANP that is interested in geriatrics with the ability to work in a team model. Respect for patient autonomy, outstanding communication skills, and self-motivation are required traits.
