

## Renee Doering, APRN, CNP

I really enjoy my work and working with older adults. I love hearing all the life stories, and working in a team environment like the nursing home. It is a privilege getting to know residents and their families, and I've taken care of a lot of people from the same families over the years. Sometimes I get to work with residents and their families for decades, other times just weeks. Either way I try to help them along their journey, and get to know what is important to them.

- Board Certifications / Re-certifications: American Nursing Certification Center Board Certified Geriatric Nurse Practitioner, 1997
- Professional Interests: Diabetes, Congestive Heart Failure
- Education: Masters of Science in Nursing, University of Minnesota, Twin Cities, 1997, Bachelor of Arts in Nursing, Luther College, 1992

## Elizabeth Fairbairn, MD

My role is to help my patients live their best life by preventing disease when able, alleviating symptoms that affect their quality of life, and working to understand their individualized goals and values to guide their care. I have knowledge in managing chronic diseases, co-morbidities, and complex patients in both the acute and chronic settings. I use my own experience as a patient and a family member to guide my work with patients and their families.

- Board Certifications: American Board of Internal Medicine.
- Professional Interests: Empowering families and patients to participate in the goals of care, value based care, quality improvement, and advocacy for healthier communities.
- Education: University of Minnesota Medical School, University of Minnesota, Internal Medicine Residency.
