

Renee Doering, APRN, CNP

I really enjoy my work and working with older adults. I love hearing all the life stories, and working in a team environment like the nursing home. It is a privilege getting to know residents and their families, and I've taken care of a lot of people from the same families over the years. Sometimes I get to work with residents and their families for decades, other times just weeks. Either way I try to help them along their journey, and get to know what is important to them.

While I enjoy managing patients with complicated medical issues, I believe my true superpower is kindness. I look forward to working with patients and their families, whether it's to rehabilitate them back to their prior living situation, or simply to help them with love and comfort through the evening of their lives.
