

## Debra Stassen, APRN, CNP

My choice to become a nurse practitioner stems from my desire to make a positive difference in the lives of those who live in the long term care setting by providing on-site medical care, personal attention and prompt conversation with families on a routine basis and as needed. Genevive patient/family interactions are relaxed, with time taken to prioritize any patient/family concerns, while keeping patient goals of care in mind at all times.

- Board Certifications/Re-certifications: American Academy of Nurse Practitioners Certified Adult Geriatric Nurse Practitioner
- Professional Interests: Polypharmacy, End of life care and comfort
- Education: Masters of Science in Nursing, University of North Dakota, Grand Forks, ND

## Kelsi Nelson, MD

My first job in high school was as a Certified Nursing Assistant at a long term care center. Now, after more than fifteen years of practicing Family Medicine and Express Care Medicine, I find myself drawn back to that initial setting. I look forward to working with residents both in a transitional care setting and also those in long term care. My goal is to provide quality and compassionate care to each and every resident I encounter!

- Board Certifications/Re-certifications: Diplomate, American Board of Family Medicine, Member of American Medical Association, Member of American Academy of Family Practice
- Professional Interests: Quality of Life, Polypharmacy, Palliative Care, Patient Interaction, Mission Work both local and international
- Education: Family Medicine Residency, University of Minnesota, Doctor of Medicine, University of Minnesota, Twin Cities
