

Genevive

Amy Foster, APRN, CNP

I have always loved working with the geriatric population. Working with Genevive allows me to provide personalized care to the elderly and their families. As part of the primary care team I am able to provide care at the nursing facility allowing the elder to receive care at their home where they are comfortable.

Kelsi Nelson, MD

My first job in high school was as a Certified Nursing Assistant at a long term care center. Now, after more than fifteen years of practicing Family Medicine and Express Care Medicine, I find myself drawn back to that initial setting. I look forward to working with residents both in a transitional care setting and also those in long term care. My goal is to provide quality and compassionate care to each and every resident I encounter!
