

## Jamie Inhoff, APRN, CNP

I am passionate about geriatric care; it is where I have spent my entire nursing career. I started as a floor nurse in a nursing home, then a nurse manager, and finally a certified nurse practitioner. I believe my purpose is to help guide older adults through their healthcare journey to reach their fullest potential. I feel privileged to be a part of their journey.

- Board Certifications / Re-certifications: American Academy of Nurse Practitioners, Geriatric Nurse Practitioner
- Professional Interests: Geriatrics, Palliative Care, Advanced Care Planning, Dementia
- Education: Master of Science in Nursing, Saint Catherine University, Bachelor of Science in Nursing, South Dakota State University, Bachelor of Science, University of St. Thomas

## Jane Pederson, MD

I am not sure when I decided I wanted to be a doctor; however, I know that growing up with my grandmother as part of our household led me to be a geriatrician. She showed me that with age comes experience and wisdom. I believe that although our youth may be our future, our older adults are our treasure. My approach as a physician is to understand my patient's preferences - what is important to them, and their families, in order to maximize their quality of life and sense of wellbeing. My goal is to help my patients continue to share their experience and wisdom with all of us and the upcoming generations.

- Board Certifications: Geriatrics
