## Brad Langley, MD

After 36 years of practicing full spectrum family medicine, I am excited to focus now on geriatric medicine here at Genevive. As I watched my own parents on their journey to end of life, then saw my in-laws struggle with age, the complexities of aging took on a more personal meaning. As a part of Genevive, I am pleased to work with a remarkable collaboration of providers. May the truly good work done here be experienced as love made visible.
