

## Abigail Hartin, DNP, APRN-CNP

I have been a nurse practitioner since 2018, with both clinic and hospital experience, working mainly with cardiology and heart failure patients. Prior to starting my career at Genevive I worked as an RN for 14 years with cardiac and transplant patients.

I enjoy working with the older population as I love hearing about their lives. I appreciate being able to bring care to them to meet their needs. I aim to be a partner in their health and supporter of their care goals. It is rewarding for me to build meaningful relationships with people and their loved ones through compassion and communication.

- Board Certifications / Re-certifications: American Academy of Nurse Practitioners, Certified Family Nurse Practitioner
- Professional Interests: Cardiology and Heart Failure
- Education: Doctor of Nursing Practice, Metropolitan State University, Bachelor of Science in Nursing, St Catherine University

## Steven Lawler, MD

I love being a Family Practitioner because I believe that the best care comes from being able to put a person's medical issues in the context of the rest of their life. I spent the first dozen years of my practice providing full-spectrum primary care in a clinic setting, and time and again, my experiences there reinforced the importance of looking at the big picture. For the last few years, I've focused on taking care of seniors in long-term care settings, and I've continued to apply that approach. I try to get to know each of my patients - not only their medical history, but also their hobbies, their career, their family life, their goals and hopes. Each patient is unique and getting to know the whole person helps me provide the best care possible.

- Board Certifications / Re-certifications: Diplomate, American Board of Family Practice
- Professional Interests: Medical Director, Northfield Care Center
- Education: Family Medicine Residency, United Family Medicine, St. Paul, MN, Doctor of Medicine, University of Iowa College of Medicine, Iowa City, IA
