

Abigail Hartin, DNP, APRN-CNP

I have been a nurse practitioner since 2018, with both clinic and hospital experience, working mainly with cardiology and heart failure patients. Prior to starting my career at Genevive I worked as an RN for 14 years with cardiac and transplant patients.

I enjoy working with the older population as I love hearing about their lives. I appreciate being able to bring care to them to meet their needs. I aim to be a partner in their health and supporter of their care goals. It is rewarding for me to build meaningful relationships with people and their loved ones through compassion and communication.

- Board Certifications / Re-certifications: American Academy of Nurse Practitioners, Certified Family Nurse Practitioner
- Professional Interests: Cardiology and Heart Failure
- Education: Doctor of Nursing Practice, Metropolitan State University, Bachelor of Science in Nursing, St Catherine University

Sandra Turbes, MD

I feel fortunate to have found the opportunity to provide quality care to elders at Genevive. Those in our care have reached a point of becoming more medically vulnerable, but they have survived a lot. I value taking the time to get to know each patient's story both medically and personally. My goal is to optimize every patient's care based on their individual health conditions, values, and needs. I strive to explain things in ways that patients and family members can understand, so that together, we can balance the benefits and risks of various options in treatment plans and overall care. What I love about my work is relationships - my relationships with patients and families, patients' connections with the important people in their lives, collaborative relationships in both long term care settings and home-based care, and the positive, collegial relationships at Genevive.
