

## Abigail Hartin, DNP, APRN-CNP

I have been a nurse practitioner since 2018, with both clinic and hospital experience, working mainly with cardiology and heart failure patients. Prior to starting my career at Genevive I worked as an RN for 14 years with cardiac and transplant patients.

I enjoy working with the older population as I love hearing about their lives. I appreciate being able to bring care to them to meet their needs. I aim to be a partner in their health and supporter of their care goals. It is rewarding for me to build meaningful relationships with people and their loved ones through compassion and communication.

- Board Certifications / Re-certifications: American Academy of Nurse Practitioners, Certified Family Nurse Practitioner
- Professional Interests: Cardiology and Heart Failure
- Education: Doctor of Nursing Practice, Metropolitan State University, Bachelor of Science in Nursing, St Catherine University

## Robert Helgren, MD

I am an Internal Medicine physician who values providing compassionate quality care to my patients. The last 25 years as an Internist has prepared me for my true niche - which is to partner with my senior patients and their families, to care for them with dignity and respect.

- Board Certifications / Re-certifications: Diplomate, American Board of Internal Medicine
- Professional Interests: Care planning for patients with complex diagnoses, Patient home visits, Listening to patients
- Education: Internal Medicine Residency, University of Minnesota, Doctor of Medicine, Wayne State University School of Medicine, Bachelor of Science, University of Michigan, Ann Arbor
