

Genevive

Abigail Hartin, DNP, APRN, CNP

I have been a nurse practitioner since 2018, with both clinic and hospital experience, working mainly with cardiology and heart failure patients. Prior to starting my career at Genevive I worked as an RN for 14 years with cardiac and transplant patients.

I enjoy working with the older population as I love hearing about their lives. I appreciate being able to bring care to them to meet their needs. I aim to be a partner in their health and supporter of their care goals. It is rewarding for me to build meaningful relationships with people and their loved ones through compassion and communication.

- Board Certifications / Re-certifications: American Academy of Nurse Practitioners, Certified Family Nurse Practitioner
- Professional Interests: Cardiology and Heart Failure
- Education: Doctor of Nursing Practice, Metropolitan State University, Bachelor of Science in Nursing, St Catherine University

Anil Kumar, MD

I have been involved with Family Medicine for over 20 years and appreciate the special bond that I have been able to develop with my patients. I am especially grateful for the opportunity to work with senior patients to provide empathetic and compassionate care. I consider it a privilege to work with seniors and their families. I consider my senior friends to be repositories of living history and learn from them daily. I believe that care of our senior patients is the most rewarding role in the practice of medicine.

- Board Certifications / Re-certifications: American Board of Family Medicine
- Professional Interests: Chronic Disease Management, Mental Health, Volunteer Health Work, Treatment of Underserved Populations
- Education: Ramsey Family and Community Medical Residency Program, St. Paul, Doctor of Medicine, Kasturba Medical College, Manipal, Bachelor of Science, University of Alberta, Edmonton, Canada.
