Genevive

Kelli Bronder, APRN, CNP

I have spent my entire nursing career caring for the geriatric population. I consider myself truly privileged to be part of the care team of a patient and to be able to get to know them and their loved ones on a personal level.

Brian Dixon, MD

If primary care doctors are the "people doctors," then seniors are by far my favorite people. Getting to know my patients and their families is something I value highly. Guiding them through the decisions and complexities that arise in their health care is also highly rewarding. It is at Genevive, helping the frailest of these patients manage chronic disease, acute illness and end-of-life transitions, where I believe a physician can have the greatest impact in primary care.
