Genevive

Ashley Kumar, DNP, APRN, CNP

My passion for working with the geriatric community started in childhood when I'd frequently tag-along with my mother, a CNA, to her workplace and spend time playing board games with the elderly and hearing stories about their lives and travels. I have worked for 8 years in geriatrics and 3 years in Med/Surg, and I'm honored and thrilled that I am able to still build these meaningful connections and gain insight into the lives of my patients, just as I did in childhood.

My experience consists of Assisted Living, TCU, and Long-Term Care, as well as inpatient acute care. I am passionate about providing safe, compassionate, evidence-based care whilst keeping my patient's goals and values at the center of my decision making. It is both an honor and a privilege to be part of the Genevive team serving the geriatric population here in the Twin Cities.

Brad Langley, MD

After 36 years of practicing full spectrum family medicine, I am excited to focus now on geriatric medicine here at Genevive. As I watched my own parents on their journey to end of life, then saw my in-laws struggle with age, the complexities of aging took on a more personal meaning. As a part of Genevive, I am pleased to work with a remarkable collaboration of providers. May the truly good work done here be experienced as love made visible.
