Genevive

Stacie Straus, APRN, CNP

I have a lifelong passion to help others and have worked in healthcare since high school. I've worked in hospital settings and homecare, and especially enjoy the elderly population. Nursing is very rewarding, but I knew I wanted to further my education and geriatrics is what I wanted to specialize in. I love getting to know my elderly patients as individuals along with their families.

- Board Certifications / Re-certifications: American Nurses Credentialing Center Certified Adult-Gerontology Primary Care Nurse Practitioner
- Professional Interests: Palliative Care, End of Life, Managing Chronic Medical Problems, Dementia
- Education: Masters in Science in Nursing, Kaplan University, Bachelor of Science in Nursing, Walden University, Associate of Science in Nursing, Anoka Ramsey Community College

Brian Dixon, MD

If primary care doctors are the "people doctors," then seniors are by far my favorite people. Getting to know my patients and their families is something I value highly. Guiding them through the decisions and complexities that arise in their health care is also highly rewarding. It is at Genevive, helping the frailest of these patients manage chronic disease, acute illness and end-of-life transitions, where I believe a physician can have the greatest impact in primary care.

- Board Certifications / Re-certifications: Diplomate, American Board of Internal Medicine
