

Genevive

Paris Strom, APRN, CNP

I am passionate about caring for the elderly population and enabling my patients to live a life focused around what is important to them. I love being able to serve people in their own homes and to get to know them as a whole person, including their family and surrounding community. I am honored to serve as a nurse practitioner with Genevive and to be able to positively impact the patients we serve.

- Board Certifications / Re-certifications: American Academy of Nurse Practitioners
- Professional Interests: Dementia, Polypharmacy, Hospice
- Education: MSN- St. Catherine's University, BSN- University of Wisconsin, Eau Claire

Sandra Turbes, MD

I feel fortunate to have found the opportunity to provide quality care to elders at Genevive. Those in our care have reached a point of becoming more medically vulnerable, but they have survived a lot. I value taking the time to get to know each patient's story both medically and personally. My goal is to optimize every patient's care based on their individual health conditions, values, and needs. I strive to explain things in ways that patients and family members can understand, so that together, we can balance the benefits and risks of various options in treatment plans and overall care. What I love about my work is relationships - my relationships with patients and families, patients' connections with the important people in their lives, collaborative relationships in both long term care settings and home-based care, and the positive, collegial relationships at Genevive.
