

Renee Doering
APRN, CNP

About I really enjoy my work and working with older adults. I love hearing all the life stories, and working in a team environment like the nursing home. It is a privilege getting to know residents and their families, and I've taken care of a lot of people from the same families over the years. Sometimes I get to work with residents and their families for decades, other times just weeks. Either way I try to help them along their journey, and get to know what is important to them.

Credentials Board Certifications or Re-certifications:
