

Abigail Hartin
DNP, APRN, CNP

About I have been a nurse practitioner for 5 years, with both clinic and hospital experience, working mainly with cardiology and heart failure patients. Prior to starting my career at Genevive I worked as an RN for 14 years with cardiac and transplant patients.

I enjoy working with the older population as I love hearing about their lives. I appreciate being able to bring care to them to meet their needs. I aim to be a partner in their health and supporter of their care goals. It is rewarding for me to build meaningful relationships with people and their loved ones through compassion and communication.

Credentials Board Certifications or Re-certifications:

American Academy of Nurse Practitioners | Certified Family Nurse Practitioner

Professional Interests: Cardiology and Heart Failure

Education: Doctor of Nursing Practice, Metropolitan State University | Bachelor of Science in Nursing, St Catherine University

Anil Kumar
MD

About I have been involved with Family Medicine for over 20 years and appreciate the special bond that I have been able to develop with my patients. I am especially grateful for the opportunity to work with older adult patients to provide empathetic and compassionate care.

I consider it a privilege to work with older adults and their families. I consider my older adult friends to be repositories of living history and learn from them daily. I believe that care of our older adult patients is the most rewarding role in the practice of medicine.

Credentials Board Certifications or Re-certifications:

American Board of Family Medicine
