APRN, CNP

About I am passionate about caring for the older adult population and enabling my patients to live a life focused on what is important to them. I love having the ability to serve my patients in the comfort of their home. It is important to me to get to know each person as a whole, which includes meeting their family and surrounding community. I am honored to continue my career as a Nurse Practitioner with Genevive and look forward to being a part of the positive impact in the lives of our patients.

About After 36 years of practicing full spectrum family medicine, I am excited to focus now on geriatric medicine here at Genevive. As I watched my own parents on their journey to end of life, then saw my in-laws struggle with age, the complexities of aging took on a more personal meaning. As a part of Genevive, I am pleased to work with a remarkable collaboration of providers. May the truly good work done here be experienced as love made visible.
