

Tina Krambeer
APRN, CNP

About I am grateful to be a part of the Genevive team where I can develop a relationship with the patient, their family, and their care team. My intention is to work with the individual to manage their chronic medical conditions by implementing evidence-based practice. I hope to provide individualized care and support in such a way that they can have the best quality of life as directed by their choices and goals of care.

Credentials Board Certifications or Re-certifications:

American Academy of Nurse Practitioners Adult-Gerontology

Primary Care **Professional Interests:** Polypharmacy,

Dementia, Chronic disease management, End of life care

Education: Bachelor of Science in Nursing, Augsburg

University | Master of Science in Nursing, St Catherine

University

Brian Dixon
MD

About If primary care doctors are the “people doctors,” then older adults are by far my favorite people. Getting to know my patients and their families is something I value highly. Guiding them through the decisions and complexities that arise in their health care is also highly rewarding. It is at Genevive, helping the frailest of these patients manage chronic disease, acute illness, and end-of-life transitions, where I believe a physician can have the greatest impact in primary care.

Credentials Board Certifications or Re-certifications:

Diplomate, American Board of Internal Medicine **Professional**

Interests: Atrial fibrillation | Congestive heart failure |

Advanced care planning | End of life care **Education:** Internal

Medicine Residency, Hennepin County Medical Center,
